Gentlemen

1. Reference: your letter dated June 5, 1986.
2. The understandings expressed in your letter are correct. In addition you asked about other IRP studies planned or underway. At this time, the Air National Guard (ANG) and the U.S. Air Force (USAF) each have a Phase I study underway. The ANG study is scheduled for internal review on 15 July. As soon as a date is confirmed for completion of a final draft, you will be contacted.
3. The USAF study deals with areas which were part of the USAF base but which are no longer under DOD control. The ANG is not taking an active part in the USAF study. Your point of contact should be:
